

# Health Alert Notice: Evaluating Patients for Possible Ebola Virus Disease: Recommendations for Healthcare Personnel and Health Officials

<http://emergency.cdc.gov/han/han00371.asp>

*The purpose of this Health Alert Notice Advisory is to remind healthcare personnel and health officials to:*

*(1) increase their vigilance in inquiring about a history of travel to West Africa in the 21 days before illness onset for any patient presenting with fever or other symptoms consistent with Ebola;*

*(2) isolate patients who report a travel history to an Ebola-affected country (currently Liberia, Sierra Leone, and Guinea) and who are exhibiting Ebola symptoms in a private room with a private bathroom and implement standard, contact, and droplet precautions (gowns, facemask, eye protection, and gloves); and*

*(3) immediately notify the local/state health department. Please disseminate this information to infectious disease specialists, intensive care physicians, primary care physicians, and infection control specialists, as well as to emergency departments, urgent care centers, and microbiology laboratories.*
